## **Planet Maths – 5<sup>th</sup> Class**

### **Chapter – Money**

Complete page 116 and 117 into your copies. It's based on unitary pricing which is all about finding out the cost of 1 item. This can also help us to identify the best value for money.

e.g. What is better value for money; 5 bars for €5.25 or 7 bars for €6.86?

€5.25 divided by 5 = €1.05

€6.86 divided by 7 = 98c. So this is the best value for money option.

Below is a video explaining how to complete unit pricing.
